Re: UST removal Piedmont Triad Airport Authority Guilford County

Dear Mr. Salley;

As reported to you on November 29, 1990, we removed eight UST's from the above property. One tank, a waste oil tank, showed TPH of 61ppm. At that time, you asked for a RCRA metals and PCB's test.

Attached is the results of this test. At present, I do not believe that the airport has immediate plans for use of the land in the area of the waste oil tank; however, we would like your determination if additional clean up work is needed as soon as possible.

If I can help with further information, please let me know.

Sincerely,

Thad Chesson
